Common Commands for Supportive communication

Whisper Mode

Whisper Mode allows Alexa to respond in a whisper when you whisper your command to it. This is ideal for late-night use when you don't want to disturb others.

- **To enable:**
  - "Alexa, turn on Whisper Mode."
- **To disable:**
  - "Alexa, turn off Whisper Mode."

Adaptive Listening Mode

- **Changing Speaking Rate:**
  - "Alexa, speak faster."
  - "Alexa, speak slower."
  - "Alexa, speak at your default speed."
